# LETTER TO SHAREHOLDERS

The board of directors (the “Board”) of Sun Hing Vision Group Holdings Limited (the “Company”) hereby announces the audited consolidated results of the Company and its subsidiaries (together, the “Group”) for the year ended 31 March 2021.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The business environment for the eyewear industry was extremely challenging during the year under review. The demand for the Group’s eyewear products was significantly weakened by the coronavirus pandemic, resulting in the decline of the Group’s consolidated turnover by 23.13% to HK\$702 million (2020: HK\$913 million). Despite the rapidly deteriorating business landscape, the Group’s profitability improved as a result of the combined effect of the following factors. First of all, there was a rebound in market demand in the fourth quarter of 2020/21 fiscal year, which helped the Group to improve its turnover and economies of scale in operation. Secondly, the Group carried out various measures to streamline its operation which effectively reduced its fixed costs and enhanced the overall efficiency for the review period. Thirdly, the Group recorded non-cash impairment losses of HK\$130 million for identified long-lived assets and non-cash net impairment losses of HK\$14 million for trade receivables in 2019/20 fiscal year, and such losses did not occur in the 2020/21 fiscal year. Moreover, the non-cash impairment losses of HK\$130 million for identified long-lived asset in

2019/20 fiscal year also resulted in lower depreciation expenses in the 2020/21 fiscal year. In addition, the COVID-19 related government subsidies also reduced part of the Group’s operating pressure during the year under review. Therefore, the Group recorded a profit attributable to the owners of the Company of HK\$10 million, in comparison to the loss attributable to the owners of the Company of HK\$166 million for the year ended 31 March 2020. Basic earnings per share was HK4 cents for the year under review (2020: loss per share – HK63 cents).

### THE ODM BUSINESS

For the year ended 31 March 2021, turnover from the Group’s original design manufacturing (“ODM”) business decreased by 25.39% to HK\$532 million (2020: HK\$713 million), which accounted for approximately 75.78% of the Group’s total consolidated turnover. In the first quarter of 2020/21 fiscal year, the two major markets of the Group, namely the United States and Europe, were subject to different degrees of travel ban and social distancing measures as imposed by the respective local governments to control the spread of coronavirus. Given such a backdrop, the Group’s sales plan was significantly disrupted. It was because most of the Group’s customers were very cautious in inventory planning and decided to reduce their orders as well as to defer their shipment schedules. There was an obvious rebound of market demand in the fourth quarter of 2020/21 fiscal year. Customers became relatively proactive in order placement but such increase in customers’ orders in the fourth quarter could not totally compensate for the drop of turnover during the first three

quarters of the year under review. As a result, the Group’s ODM turnover to Europe and the United States decreased by 34.32% to HK\$243 million (2020: HK\$370 million) and by 17.38% to HK\$233 million (2020: HK\$282 million) respectively. For the review period, Europe and the United States accounted for 45.68% and 43.80% of the Group’s total ODM turnover respectively. In terms of product mix, sales of metal frames, plastic frames and others contributed 41%, 58% and 1% (2020: 47%, 52% and 1%) of the Group’s total ODM turnover respectively, which was slightly changed in comparison to that of the last review period due to the change of market trend.

### THE BRANDED EYEWEAR DISTRIBUTION BUSINESS

For the year ended 31 March 2021, turnover from the Group’s branded eyewear distribution business decreased by 19.55% to HK\$144 million (2020: HK\$179 million), which accounted for approximately 20.51% of the Group’s total consolidated turnover. Such decrease was mainly caused by the decrease of market demand from various Asian countries like China, Japan, South Korea, India, Thailand and Philippines which were heavily affected by the coronavirus pandemic. The spread of coronavirus had a profound adverse impact on customers’ product launch plans, which in turn severely undermined the Group’s order book during the review period. Although the eyewear market of China gradually improved along with the removal of social distancing restrictions imposed by the Chinese government since March 2020, the overall market sentiment of the Asian market as a whole was still

## LETTER TO SHAREHOLDERS (CONTINUED)

quite negative and that hindered the performance of the Group's distribution business. Asia continued to be the most important market of the Group's branded eyewear distribution business. It accounted for 97.79% of the Group's total distribution turnover.

### THE BRANDED CONTACT LENS BUSINESS

For the year ended 31 March 2021, the Group's turnover from its branded contact lens business increased by 35.29% to HK\$23 million (2020: HK\$17 million), which accounted for 3.28% of the Group's total consolidated turnover. Such increase was mainly due to the relatively low sales base in the corresponding period last year. The Group's cosmetic contact lens products are of highly consumer discretionary and fashion oriented nature, and therefore the performance for the branded contact lens business is expected to be continuously volatile under the uncertain economic environment. The Group will closely monitor its branded contact lens business and will carry out necessary measures to make this business to be developed in a way consistent with the Group's overall strategy.

### OTHER BUSINESSES

The Group received income from external parties for trademark licensing and property rental, but such income contributed only a small portion of the Group's total consolidated turnover. For the year ended 31 March 2021, the income generated from the Group's licensing business in connection with Jill Stuart trademark was HK\$1 million

(2020: HK\$2 million). The income generated from the Group's certain investment properties located in Hong Kong was HK\$2 million (2020: HK\$3 million). Those investment properties were transferred to property, plant and equipment during the year under review.

### LIQUIDITY AND CAPITAL RESOURCES

The Group continued to maintain a strong liquidity and financial position. It recorded a net cash inflow of HK\$44 million from operations during the year under review. As at 31 March 2021, the Group held a cash and bank balance of HK\$317 million. It also had a bank borrowing of HK\$42 million which represented a mortgage loan repayable by installments over a period of 20 years with a repayable on demand clause. Such bank loan was secured by certain of the Group's leasehold land and buildings situated in Hong Kong. The debt-to-equity ratio (expressed as a percentage of banking borrowings over equity attributable to owner of the Company) as at 31 March 2021 was 5.51%. The net current assets and current ratio of the Group as at 31 March 2021 were approximately HK\$404 million and 2.5:1 respectively. The total equity attributable to owners of the Company increased to HK\$770 million as at 31 March 2021 from HK\$755 million as at 31 March 2020. Debtor turnover period increased to 116 days because debt collection from customers slowed down since the outbreak of coronavirus crisis. Meanwhile, inventory turnover period

increased to 74 days as the Group needed to replenish inventories to fulfill the stronger customer orders in the first quarter of 2021/22 fiscal year. The Group believes that its trade receivables and inventories were still maintained at a reasonable and healthy level in view of the business nature. The Group will closely monitor the debt collection status and inventory level in order to maximize the efficiency of working capital. The Directors are confident that the financial position of the Group will remain strong, and the Group has sufficient liquidity and financial resources to meet its present commitments and future business needs.

### DIVIDENDS

After considering the Group's liquidity, cash position and future business plan, the Directors have resolved to recommend at the forthcoming annual general meeting a final special dividend of HK1.5 cents per share and no final dividend for the year ended 31 March 2021, to the shareholders whose names appear in the register of members of the Company at the close of business on 1 September 2021. The final special dividend is expected to be paid on or about 14 September 2021. The Directors will continue to monitor the dividend policy closely to ensure that an optimal balance can be achieved between the retention of sufficient liquidity in the Group to prepare for the future development ahead and the distribution of earnings to the shareholders respectively.

## LETTER TO SHAREHOLDERS (CONTINUED)

### CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed from 16 August 2021 to 20 August 2021 (both days inclusive) and from 27 August 2021 to 1 September 2021 (both days inclusive), during which periods no transfer of shares will be effected. In order to be eligible to attend and vote at the forthcoming annual general meeting of the Company, all transfers of shares accompanied by the relevant share certificates must be lodged with the Company's share registrar in Hong Kong, Union Registrars Limited, Suites 3301-04, 33/F., Two Chinachem Exchange Square, 338 King's Road, North Point, Hong Kong ("Hong Kong Share Registrar") not later than 4:00 p.m. on 13 August 2021. In order to qualify for the proposed final special dividend, all transfers of shares accompanied by the relevant share certificates must be lodged with the Hong Kong Share Registrar not later than 4:00 p.m. on 26 August 2021.

### HUMAN RESOURCES

The Group had a workforce of about 4,000 people as at 31 March 2021. The Group remunerates its employees based on their performance, years of service, work experience and the prevailing market situation. Bonuses and other incentive payments are granted on a discretionary basis based on individual performance, years of service and overall operating results of the Group. Other employee benefits include medical insurance scheme, mandatory provident fund scheme or other retirement benefit scheme, subsidised or free training programs and participation in the Company's share option scheme.

### CHARGES ON GROUP'S ASSETS AND CONTINGENT LIABILITIES

Details of the charges on the Group's assets are set out in Note 28 to the consolidated financial statements. As at 31 March 2021, there were no significant contingent liabilities other than those disclosed in the consolidated financial statements.

### FOREIGN EXCHANGE EXPOSURE

Most of the Group's transactions were conducted in the U.S. dollars, Hong Kong dollars and Renminbi. In addition, the majority of the Group's assets were also kept in these currencies. Other than the potential exposure to the fluctuation of Renminbi, the Group's exposure to currency fluctuation was relatively limited. The Group closely monitors the foreign exchange exposure and uses foreign exchange forward contracts and/or other appropriate tools to control the exposure in connection with Renminbi when appropriate.

### CAPITAL COMMITMENTS

Details of the Group's capital commitments are set out in Note 35 to the consolidated financial statements.

### PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the year under review, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities.

### PROSPECTS

It is expected the rebound in market demand we saw in the last quarter of 2020/21 fiscal year may continue in the new fiscal year. However, looking forwards the business environment will still be full of uncertainty. On the one hand, there is no sign that the coronavirus crisis can be resolved in the coming months. The newly detected coronavirus variants may trigger a new wave of infection over the world, which is likely to further adversely affect the already fragile economy and slow down the pace of economic recovery. On the other hand, it is expected that the trade relationship between China and the United States will remain tense. It is uncertain whether new trading restrictions will be imposed and any such further restrictions will likely affect the Group's operation. Furthermore, Renminbi may further appreciate against U.S. dollar due to the quantitative easing policy adopted by the government of the United States to stimulate its economy. This, together with the continuously rising labor cost in China, is expected to create more challenges for the operating profitability of the Group.

In order to weather the uncertain business environment, the Group will continue to carry out various projects through its cross-functional teams to explore room for efficiency enhancement. Besides, it will strengthen its budgetary control for each business unit, improve the related performance

assessment system, streamline its organization structure and optimize its logistic flows with an aim to reduce cost footprint and motivate the work incentives of employees. To prepare ahead for the potentially volatile market demand in 2021/22 fiscal year, the Group will continue to maintain a flexible production capacity so that it can deploy optimal resources to capitalize on the business opportunities that may arise. Meanwhile, it will outsource non-core services to business partners who share the common beliefs with us so as to allow the Group to focus on the most critical operations that are crucial in generating value.

The Group will continue to explore new sales channels and distribution partners for its branded eyewear distribution business. In particular, the Group will strengthen its e-commerce network and look for innovative sales platforms that can let the Group to reach customers not accessible within the traditional channels. In addition, it will widen its existing product ranges by including product collections at more affordable price points. Products will also be specifically designed and tailor-made to meet the preference of consumers in different geographical regions.

The Group will keep investing in carefully selected assets that are strategically important for future growth. To take advantage of the comprehensive sourcing network and infrastructure developed in central China, the Group will continue to spend resources to

upgrade its production facilities in Henan so that more manufacturing processes can be finished in this new production site to reduce the burden of the Group's existing factories located in Guangdong region. The Group has also kicked off a project to set up a production site in Vietnam in order to further secure a stable product supply. Although the project is now suspended due to the outbreak of coronavirus, the Group will review its plan again once the situation has become more certain.

The business environment is expected to be extremely challenging in the years to come. With our strength in product development, brand management and manufacturing in the eyewear industry as well as our solid balance sheet, we are confident that the Group will overcome the difficulties ahead, and continue to create long-term value for our various stakeholders as well as deliver the objective to achieve sustainable growth in long run.

### APPRECIATION

On behalf of the Board, we would like to thank our customers for their support during the year. We would also like to express our sincere appreciation to our shareholders, staffs, suppliers and bankers for their efforts and commitments.

# CORPORATE GOVERNANCE REPORT

The Company is committed to maintain a high standard of corporate governance with a view to enhancing the management of the Company as well as to preserve the interests of the shareholders as a whole. The Board has adopted the code provisions set out in the Corporate Governance Code (the “CG Code”) and the Corporate Governance Report contained in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”). During the year ended 31 March 2021, the Company has complied with all applicable code provisions in the CG Code which were effective during the period between 1 April 2020 and 31 March 2021, except for the deviation from Code A.2.1, of the CG Code as described below in the “Chairman and Chief Executive Officer” section.

## DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the “Model Code”) as its own code of conduct regarding directors’ securities transactions on terms no less exacting than the required standard under the Model Code. Having made specific enquiry of all Directors, the Directors confirmed that they had complied with the required standard set out in the Model Code throughout the year ended 31 March 2021.

## BOARD OF DIRECTORS

During the period between 1 April 2020 to 31 March 2021, the Board comprised five executive Directors, namely Mr. Ku Ngai Yung, Otis (Chairman), Mr. Ku Ka Yung (Deputy Chairman), Mr. Chan Chi Sun, Ms. Ma Sau Ching and Mr. Liu Tao (appointed on 1 March 2021) and four independent non-executive Directors (representing at least one-third of the Board), namely Mr. Lo Wa Kei, Roy (resigned on 1 March 2021), Mr. Lee Kwong Yiu, Mr. Wong Che Man, Eddy and Mr. Chow Chi Fai (appointed on 1 March 2021).

Three of the independent non-executive Directors, namely Mr. Lo Wa Kei, Roy (resigned on 1 March 2021), Mr. Wong Che Man, Eddy and Mr. Chow Chi Fai (appointed on 1 March 2021), possess appropriate professional accounting qualifications and financial management expertise. All of the independent non-executive Directors have signed their respective confirmation letters to the Company confirming their independence as set out in rule 3.13 of the Listing Rules.

Biographical details of the Directors are set out in the section of Directors and Senior Management on page 13 to 14. The Board possesses a balanced mix of skills and expertise which supports the continuing development of the Company.

## CORPORATE GOVERNANCE REPORT (CONTINUED)

The Board is charged with responsibility of setting corporate policy and overall strategy for the Group and providing effective oversight of the management of the Group's business affairs. The Board also monitors the financial performance and the internal controls of the Group's business operation and reviews the Company's compliance with applicable laws and regulation. The implementation of strategy, management of daily operations and administration of the Group's affairs are delegated to the management team.

The Board is also responsible for performing the corporate governance function of the Company in accordance with written terms of reference that are consistent with the duties as set out in Code D.3.1 of the CG Code. During the year ended 31 March 2021, the Board has performed the duties and reviewed the corporate governance report and monitored the Company's compliance with the CG Code. The Board has also reviewed the Company's policies and practice on corporate governance.

Mr. Ku Ngai Yung, Otis is the brother of Mr. Ku Ka Yung.

### **CHAIRMAN AND CHIEF EXECUTIVE OFFICER**

Code A.2.1 of the CG Code provides, inter alia, that the roles of chairman and chief executive should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive should be clearly established and set out in writing.

The Company does not officially have a position of Chief Executive Officer. However, Mr. Ku Ngai Yung, Otis has been assuming the roles of both the Chairman and Chief Executive Officer of the Company. In this regard, the Company has deviated from Code A.2.1 of the CG Code. The Board intends to maintain this structure in the future as it believes that it would provide the Group with strong and consistent leadership and allow the Group's business operations, planning and decision making as well as execution of long term business strategies to be carried out more effectively and efficiently. Nonetheless, the Board would review and monitor the situation on a regular basis and would ensure that the present structure would not impair the balance of power in the Company. Besides, significant decisions of the Company are required to be made in consultation with and collectively by the members of the Board and/or the appropriate committees and senior management team to ensure that a balanced view is maintained during the decision making process.

During the year ended 31 March 2021, the Chairman held a meeting with all the independent non-executive Directors without the presence of other Directors.

### **APPOINTMENT AND RE-ELECTION OF DIRECTORS**

According to Bye-law 87(1) of the bye-laws of the Company (the "Bye-laws"), at each annual general meeting of the Company, one-third of the Directors for the time being (or if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation no later than the third annual general meeting after he was last elected or re-elected. Also, according to Bye-law 90 of the Bye-laws, a Director appointed to an office as managing director, joint managing director or deputy managing director shall also be subject to rotation, resignation and removal as the other directors of the Company. In addition, Bye-law 86(2) of the Bye-laws provides that any Director appointed by the Board to fill a casual vacancy on the Board or, subject to authorisation by the members in general meeting, as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company.

## CORPORATE GOVERNANCE REPORT (CONTINUED)

Mr. Chan Chi Sun, an executive Director, Mr. Lee Kwong Yiu and Mr. Lo Wa Kei, Roy, both independent non-executive Directors, were re-elected as Directors at the 2020 annual general meeting for a term of no more than three years and subject to retirement by rotation in accordance with the Bye-laws.

Mr. Ku Ngai Yung, Otis, Ms. Ma Sau Ching and Mr. Liu Tao, all executive Directors, and Mr. Chow Chi Fai, an independent non-executive Director, will retire at the forthcoming 2021 annual general meeting and will offer themselves for re-election. Their proposed term of office shall not be more than three years and is subject to retirement by rotation in accordance with the Bye-laws.

### CONTINUING PROFESSIONAL DEVELOPMENT OF DIRECTORS

Under Code A.6.5 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant. The Company should be responsible for arranging and funding, placing an appropriate emphasis on the roles, functions and duties of the Directors. During the year ended 31 March 2021, all Directors (other than Mr. Lo Wa Kei, Roy, but including Mr. Liu Tao and Mr. Chow Chi Fai who were appointed on 1 March 2021) attended a seminar on various duties and obligations under the Listing Rules organized by the Company and conducted by the Company's legal advisor, Messrs. King & Wood Mallesons. All Directors were also provided by the Company with materials designed for refreshing knowledge on Listing Rules and other relevant laws and regulations. Besides, Mr. Lee Kwong Yiu, Mr. Wong Che Man, Eddy, Mr. Lo Wa Kei, Roy and Mr. Chow Chi Fai participated in courses, seminars and other continuous professional development programs required for their professional practices. Details of the professional qualifications of each Director are set out in the section of Directors and Senior Management on page 13 to 14.

### COMPANY SECRETARY

Mr. Lee Kar Lun, Clarence was appointed as the company secretary of the Company on 26 October 2012. He is a full time employee of the Group and possesses the professional qualifications as required under rule 3.28 of the Listing Rules. Mr. Lee Kar Lun, Clarence confirmed that he had undertaken not less than 15 hours of relevant professional training during the year ended 31 March 2021 in accordance with rule 3.29 of the Listing Rules.

### REMUNERATION COMMITTEE

A remuneration committee (the "Remuneration Committee") was established by the Company with written terms of reference and comprised Mr. Lee Kwong Yiu (Chairman), Mr. Lo Wa Kei, Roy (resigned on 1 March 2021) and Mr. Wong Che Man, Eddy and Mr. Chow Chi Fai (appointed on 1 March 2021), all of whom were independent non-executive Directors, as well as the human resources manager of the Group. The duties of the Remuneration Committee include, inter alia, making recommendations to the Board on the Company's policy and structure for all Directors and senior management remuneration and on the establishment of a formal and transparent procedure for developing remuneration policy.

## CORPORATE GOVERNANCE REPORT (CONTINUED)

For the year ended 31 March 2021, the Remuneration Committee has reviewed and made recommendations to the Board on the remuneration packages of individual Directors and senior management and the overall remuneration policy of the Group and assessed performance of the Directors.

### AUDIT COMMITTEE

An audit committee (the “Audit Committee”) has been established by the Company with written terms of reference to act in an advisory capacity and to make recommendations to the Board. The members of the Audit Committee comprised Mr. Lo Wa Kei, Roy (resigned on 1 March 2021), Mr. Lee Kwong Yiu, Mr. Wong Che Man, Eddy and Mr. Chow Chi Fai (Chairman, appointed on 1 March 2021), all of whom were independent non-executive Directors. Mr. Lo Wa Kei, Roy, Mr. Wong Che Man, Eddy and Mr. Chow Chi Fai are all qualified certified public accountants and possess the qualifications as required under rule 3.10(2) of the Listing Rules. None of the members of the Audit Committee is a member of the former or existing auditors of the Group. The Audit Committee has adopted the principles set out in the CG Code. The duties of the Audit Committee include review of the interim and annual reports of the Group, effectiveness of internal audit function as well as various auditing, financial reporting, risk management and internal control matters with the management and/or external auditor of the Company.

For the year ended 31 March 2021, the Audit Committee held two meetings. Attendance of each audit committee member is set out as follows:

### NOMINATION COMMITTEE

A nomination committee (the “Nomination Committee”) was established by the Company with written terms of reference. The Nomination Committee comprised Mr. Wong Che Man, Eddy (Chairman), Mr. Lo Wa Kei, Roy (resigned on 1 March 2021), Mr. Lee Kwong Yiu and Mr. Chow Chi Fai (appointed on 1 March 2021), all of whom were independent non-executive Directors, as well as the human resources manager of the Group. The duties of the Nomination Committee include, inter alia, the review of the structure, size and composition of the Board and making recommendations on any proposed changes to the Board to complement the Company’s corporate strategy. Moreover, in performing the duties, the Nomination Committee shall ensure that the Board has the appropriate balance of skills, experience and diversity of perspective appropriate to the requirements of the Company’s business and that the Company makes relevant disclosure in accordance with the requirements of the Listing Rules.

The Company has adopted the policy related to nomination of the Directors. When a candidate is recommended and selected or when an existing Director is recommended and selected for re-election, decision will be made according to factors including such candidate’s integrity, professional knowledge, industry experience and commitment to the Group’s business in respect of time and attention. In addition, the Nomination Committee will also consider the long-term objective of the Group and the requirements as set out in rule 3.13 of the Listing Rules (if applicable). Candidates are required to make appropriate disclosure to the Board to avoid any conflict of interests. Besides, the nomination procedures and processes are required to be conducted in an objective manner in accordance with the laws of Bermuda, the Bye-laws as well as other applicable regulations.

The Company has adopted policy concerning diversity of Board members. Under such a policy, selection of the candidates to the Board is based on the Company’s business model and specific needs with reference to a range of diversity perspectives, including but not limited to gender, age, language, culture, education background, professional knowledge and industry experience. The Company believes that a balanced and diversified board composition will help to stimulate new ideas and enhance the quality of the Group’s decision making process. For the year ended 31 March 2021, the Company maintained an effective Board comprising members of different genders, professional background and industry experience. The Company’s board diversity policy was consistently implemented.

For the year ended 31 March 2021, the Nomination Committee held two meetings. Attendance of each nomination committee member is set out as follows:

<b>Nomination Committee Members</b>	<b>Attendance Record</b>
Mr. Wong Che Man, Eddy ( <i>Chairman</i> )	2/2
Mr. Lo Wai Kei, Roy (resigned on 1 March 2021)	2/2
Mr. Lee Kwong Yiu	2/2
Mr. Chow Chi Fai (appointed on 1 March 2021)	Not applicable

For the year ended 31 March 2021, the Nomination Committee has monitored and reviewed the nomination procedures and process for the nomination of Directors, reviewed the composition of the Board and made recommendation to the Board on matters related to election and retirement of the Directors. With the existing Board members coming from a variety of business and professional background, the Nomination Committee considers that the Board possesses a balance of skills, experience and diversity appropriate to the requirements of the Company’s business.

### **ACCOUNTABILITY, INSIDE INFORMATION, RISK MANAGEMENT AND INTERNAL CONTROL**

The Directors acknowledge their responsibility to prepare financial statements for the financial year ended 31 March 2021 which give a true and fair view of the state of affairs of the Company and the Group and the results and cash flows of the Group. In preparing the financial statements for the year ended 31 March 2021, the Directors have adopted suitable accounting policies which are pertinent to the Group's operation and relevant to the financial statements, have made judgements and estimates that are prudent and reasonable, and have prepared the financial statements on a going concern basis.

The Directors' responsibilities for the preparation of the financial statements, and the responsibilities of the auditor to the shareholders, are set out in the auditor's report on pages 31 to 36.

The Group has established policy and procedure for handling and dissemination of insider information. The policy requires sensitive information (if any) to be protected with high level of care and the persons receiving potential sensitive information are required to comply with the applicable laws, regulations and rules in respect of insider information. The Group follows the requirements of the Listing Rules and the Securities and Futures Ordinance when disclosing information to public. Inside information (if any) will be disseminated timely in a way which aims at preventing any person be placed in a privileged dealing position, letting the market be appropriately informed for the latest information, and allowing investors to have reasonable time to respond to such information.

It is the responsibility of the Board to ensure that the Group maintains sound and effective risk management and internal control system. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Group's risk management system is established under a structured framework with clearly defined objective. A top-down approach and methodology is adopted to identify risk, assess and prioritize risk, develop risk response, monitor risk and report risk. The Group has set up appropriate governance body to enforce the risk management system. Risks are identified through periodic assessment performed by different departments of the Group following the preset program. Identified risks are then summarized, prioritized according to the risk assessment criteria as set out in the Group's risk policy, documented in report, and communicated within the Group to ensure that risk owners and action plans are properly assigned to the identified risks.

The Group's internal control system includes a well-defined management structure with limits of authority, comprehensive policies and standards. It is designed to help the achievement of business objectives, safeguard assets against unauthorized use or disposition, ensure the maintenance of proper accounting records, and ensure compliance with relevant legislation and regulations. The Group has a specified team which is responsible for the internal audit function. Its duties include ongoing monitoring of the Group's internal control system and exploring enhancement of the Group's operating efficiency.

## CORPORATE GOVERNANCE REPORT (CONTINUED)

For the year ended 31 March 2021, the Board has conducted annual review to assess the effectiveness of the Group's risk management and internal control system through the following:

- reviewing the policy of the Group's risk management system;
- reviewing the risk reports prepared by the Group and evaluating the risk inventory list and the related action plan assigned for the identified risks;
- assessing the programs and findings of the team and governance body who are in charge of risk management system and internal audit function;
- conducting regular management meetings to discuss and handle the identified risks and internal control issues;
- reviewing the findings made by the auditor in respect of issues encountered during the processes of annual audit and interim review; and
- engaging a specialized division of Messrs. Deloitte Touche Tohmatsu to assess the internal controls in respect of certain key business operations of the Group.

Based on the results of the assessment, no major issue has been identified that indicates significant inadequacy and ineffectiveness on the Group's risk management and internal control system. Appropriate actions are being taken to address the areas for improvement identified.

### GENERAL MEETING

### **DIVIDEND POLICY**

The Group adopts a dividend policy which aims at achieving an optimal balance between the retention of sufficient liquidity in the Group to prepare for the development ahead and the distribution of earnings to the shareholders of the Company. According to the adopted dividend policy, any declaration of dividends by the Company shall be conducted in accordance with the laws of Bermuda, the Bye-laws as well as other applicable regulations. In deciding whether to propose a dividend and in determining the dividend amount, the Board will take into account factors including the Group's financial results, cash flows, cash and bank balance on hand and future business plans.

### **SHAREHOLDERS' RIGHTS**

#### **PROCEDURES BY WHICH SHAREHOLDERS CAN CONVENE A SPECIAL GENERAL MEETING**

Shareholders of the Company are required to observe and fully comply with all applicable regulations and laws of Bermuda and the Bye-laws in convening a special general meeting. Pursuant to the Bye-laws, shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the company secretary of the Company, to require a special general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one days of such deposit the Board fails to proceed to convene such meeting, the requisitionists themselves may do so in accordance with the relevant provisions set out in the Companies Act 1981 of Bermuda (the "Act").

#### **PROCEDURES BY WHICH ENQUIRIES MAY BE PUT TO THE BOARD**

Shareholders may send their direct enquiries to the Board in writing by mail through the company secretary of the Company to the Company's registered office in Bermuda at Clarendon House, 2 Church Street, Hamilton, HM11, Bermuda ("Registered Office") and the Company's principal place of business in Hong Kong at 25th Floor, EGL Tower, 83 Hung To Road, Kwun Tong, Kowloon, Hong Kong ("Hong Kong Principal Office").

#### **PROCEDURES FOR PUTTING FORWARD PROPOSALS AT GENERAL MEETINGS**

Shareholders of the Company are required to observe and fully comply with all applicable regulations and laws of Bermuda and the Bye-laws in putting forward proposals at general meetings. In addition, shareholders of the Company are also required to comply with the following requirements unless they are contradicting to the laws and regulations of Bermuda. In case of contradiction, the regulations and laws of Bermuda shall prevail.

To put forward a proposal at a shareholders' meeting, shareholders are requested to submit a written request stating the resolution intended to be moved at the general meeting; or a statement with respect to the matter referred to in any proposed resolution or the business to be dealt with at a particular general meeting. The written request/statements must be signed by the shareholder(s) concerned and deposited at the Company's Registered Office and its Hong Kong Principal Office, for the attention of the company secretary of the Company. Proposals put forward at shareholders' meeting will be voted by poll pursuant to the Listing Rules and the results will be posted on the websites of the Stock Exchange and the Company after the relevant general meeting.

### **INVESTOR RELATIONS**

## TO THE MEMBERS OF SUN HING VISION GROUP HOLDINGS LIMITED

新興光學集團控股有限公司

*(incorporated in Bermuda with limited liability)*

## OPINION

We have audited the consolidated financial statements of Sun Hing Vision Group Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 37 to 122, which comprise the consolidated statement of financial position as at 31 March 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<b><i>Expected credit loss (“ECL”) assessment of trade receivables</i></b>	
<p>We identified the ECL assessment of trade receivables as a key audit matter due to the significance of the balance to the consolidated statement of financial position as a whole, estimation uncertainty and the management judgment involved in the evaluation of ECL.</p> <p>The management performed ECL assessment of trade receivables with reference to the valuations performed by the independent qualified professional valuer (the “Valuer”). As disclosed in notes 22 and 32 to the consolidated financial statements, the trade receivables carried at HK\$222,198,000 (net of allowance for credit loss of HK\$14,373,000 as at 31 March 2021). Net impairment loss of HK\$3,478,000 was reversed in profit or loss during the year ended 31 March 2021.</p> <p>As disclosed in note 4 to the consolidated financial statements, except for gross carrying amounts of trade receivables with significant balances of HK\$170,783,000 which are assessed for ECL individually, the Group uses provision matrix to calculate the ECL for the remaining trade receivables collectively. The provision rates are based on past due analysis as groupings of various debtors that have similar loss patterns.</p> <p>The provision matrix is based on the Group’s historical default rates taking into consideration of both quantitative and qualitative information that is reasonable and supportable including forward-looking information that is available without undue costs or effort. At the end of each reporting period, the historical observed default rates are reassessed and forward-looking information are reconsidered.</p> <p>Details of the ECL assessment of trade receivables are set out in note 32 to the consolidated financial statements.</p>	<p>Our procedures in relation to the ECL assessment of trade receivables included:</p> <ul style="list-style-type: none"> <li>• Understanding the key controls on how the management estimates loss allowance for credit loss for trade receivables;</li> <li>• Evaluating of the Valuer’s competence, capabilities and objectivity;</li> <li>• Assessing management’s basis in identifying trade receivables with significant balances or credit-impaired and determining allowance for credit losses for these trade receivables using internal credit rating with reference to the external credit agency data and the reasonableness of the forward-looking information being considered;</li> <li>• Testing the integrity of information used by management to develop the provision matrix, including trade receivables ageing analysis as at 31 March 2021, on a sample basis, by comparing individual items in the analysis with the relevant sales invoices and goods delivery notes;</li> <li>• Evaluating the reasonableness of management judgement in determining allowance for credit loss for trade receivables as at 31 March 2021, including the reasonableness of management’s grouping of the remaining trade debtors into different categories in the provision matrix, and the basis of estimated loss rates applied in each category in the provision matrix with reference to historical default rates and forward-looking information;</li> <li>• Evaluating the disclosures regarding the ECL assessment of trade receivables in note 32 to the consolidated financial statements; and</li> <li>• Testing subsequent settlements of trade receivables, on a sample basis, by inspecting supporting documents in relation to cash receipt from trade debtors subsequent to the end of the current reporting period.</li> </ul>

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### KEY AUDIT MATTERS (CONTINUED)

Key audit matter	How our audit addressed the key audit matter
<i>Impairment assessment of the Identified Long-lived Assets (as defined below)</i>	
<p>We identified the impairment assessment of certain long-lived assets relating to the Group's business of manufacturing and trading of eyewear products, comprising principally of certain property, plant and equipment, right-of-use assets, intangible assets, deposits paid for acquisition of property, plant and equipment and right-of-use asset (the "Identified Long-lived Assets"), as a key audit matter as significant judgement by the management is required to assess the amount of impairment of these assets.</p> <p>During the year ended 31 March 2020, the management of the Group performed an impairment assessment of the Identified Long-lived Assets due to the indication for impairment as disclosed in note 4 to the consolidated financial statements. As at 31 March 2021, the management of the Group has reassessed the impairment assessment of the Identified Long-lived Assets which include the carrying amounts of property, plant and equipment, right-of-use assets, intangible assets, deposits paid for acquisition of property, plant and equipment and right-of-use asset were HK\$283,760,000, HK\$13,718,000, HK\$23,673,000 and HK\$21,285,000 respectively, as set out in note 4 to the consolidated financial statements. As further disclosed in note 4 to the consolidated financial statements, for the purpose of assessing impairment, the recoverable amounts of cash generating unit to which these assets belongs have been determined by the management of the Group based on value in use calculations with reference to the valuations performed by the Valuer using financial budgets based on past performance and expectation for market development, where the key inputs parameters include growth rates and discount rates.</p> <p>Based on the results of the management's assessment, no additional impairment loss nor reversal of impairment loss is required to be recognised against the Identified Long-lived Assets for the year ended 31 March 2021.</p>	<p>Our procedures in relation to management's impairment assessment of the Identified Long-lived Assets included:</p> <ul style="list-style-type: none"> <li>• Understanding the Group's impairment assessment process, including impairment assessment model adopted and assumptions used;</li> <li>• Evaluating the independent qualified professional valuer's competence, capabilities and objectivity;</li> <li>• Engaging our internal specialists to review the reasonableness of the impairment assessment model adopted and assumptions used by the management of the Group;</li> <li>• Assessing the reasonableness of the management's estimate of the growth rates with reference to the historical performance and the latest budgets of the Group and market data;</li> <li>• Assessing the reasonableness of the discount rates used by management in determining the value in use, with reference to the current market risk-free rate of interest and the industry specific risk factors;</li> <li>• Evaluating the historical accuracy of the management's cash flow projections by comparing the historical cash flow projections with the actual performance; and</li> <li>• Assessing the sensitivity analysis prepared by management on the significant assumptions to evaluate the extent of impact of these assumptions on the impairment assessment model.</li> </ul>

### **OTHER INFORMATION**

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Wu Ka Ming.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

## 1. GENERAL INFORMATION

The Company is incorporated in Bermuda as an exempted company with limited liability under The Companies Act 1981 of Bermuda (as amended) and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). Its parent and ultimate holding company is United Vision International Limited, a company incorporated in the British Virgin Islands (the “BVI”). The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section of the annual report.

The Company acts as an investment holding company. The principal activities of its principal subsidiaries and joint venture are set out in notes 39 and 19 respectively.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is also the functional currency of the Company.

## 2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

### AMENDMENTS TO HKFRSs THAT ARE MANDATORILY EFFECTIVE FOR THE CURRENT YEAR

In the current year, the Group has applied the “Amendments to References to the Conceptual Framework in HKFRS Standards” and the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time, which are mandatorily effective for the annual periods beginning on or after 1 April 2020 for the preparation of the consolidated financial statements:

Amendments to HKAS 1 and HKAS 8	Definition of Material
Amendments to HKFRS 3	Definition of a Business
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	Interest Rate Benchmark Reform

In addition, the Group has early applied the Amendment to HKFRS 16 “Covid-19-Related Rent Concessions”.

Except as described below, the application of the “Amendments to References to the Conceptual Framework in HKFRS Standards” and the amendments to HKFRSs in the current year had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 March 2021

## 2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

### AMENDMENTS TO HKFRSs THAT ARE MANDATORILY EFFECTIVE FOR THE CURRENT YEAR (CONTINUED)

#### 2.1 Impacts on application of Amendments to HKAS 1 and HKAS 8 “Definition of Material”

The Group has applied the Amendments to HKAS 1 and HKAS 8 for the first time in the current year. The amendments provide a new definition of material that states “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity”. The amendments also clarify that materiality depends on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements taken as a whole.

The application of the amendments in the current year had no impact on the consolidated financial statements.

#### 2.2 Impacts on early application of Amendment to HKFRS 16 “Covid-19-Related Rent Concessions”

The Group has applied the amendment for the first time in the current year. The amendment introduces a new practical expedient for lessees to elect not to assess whether a Covid-19-related rent concession is a lease modification. The practical expedient only applies to rent concessions occurring as a direct consequence of the Covid-19 that meets all of the following conditions:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- there is no substantive change to other terms and conditions of the lease.

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 “Leases” if the changes were not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

The application of the amendment had no impact to the opening retained profits at 1 April 2020. The Group has benefited from lease payments of one month on several leases in the People’s Republic of China (“PRC”). The Group has derecognised the part of lease liability that has been extinguished by the forgiveness of lease payments using the discount rates originally applied to these leases respectively, resulting in a decrease in the lease liabilities, which has been recognised as variable lease payments in profit or loss for the current year.

## 2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

### NEW AND AMENDMENTS TO HKFRSs IN ISSUE BUT NOT YET EFFECTIVE (CONTINUED)

#### Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 “Interest Rate Benchmark Reform – Phase 2”

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 “Interest Rate Benchmark Reform – Phase 2” relate to the modification of financial assets, financial liabilities and lease liabilities, specific hedge accounting requirements and disclosure requirements applying HKFRS 7 Financial Instruments: Disclosures to accompany the amendments regarding modifications.

- **Modification of financial assets, financial liabilities and lease liabilities.** A practical expedient is introduced for modifications required by the reform (modifications required as a direct consequence of the interest rate benchmark reform and made on an economically equivalent basis). These modifications are accounted for by updating the effective interest rate. All other modifications are accounted for using the current HKFRSs requirements. A similar practical expedient is proposed for lessee accounting applying HKFRS 16;
- **Hedge accounting requirements.** Under the amendments, hedge accounting is not discontinued solely because of the interest rate benchmark reform. Hedging relationships (and related documentation) are required to be amended to reflect modifications to the hedged item, hedging instrument and hedged risk. Amended hedging relationships should meet all qualifying criteria to apply hedge accounting, including effectiveness requirements; and
- **Disclosures.** The amendments require disclosures in order to allow users to understand the nature and extent of risks arising from the interest rate benchmark reform to which the Group is exposed to and how the entity manages those risks as well as the entity’s progress in transitioning from interbank offered rates to alternative benchmark rates, and how the entity is managing this transition.

As at 31 March 2021, the Group has a Hong Kong Interbank Offered Rate (“HIBOR”) bank loan which may be subject to interest rate benchmark reform. The Group expects no significant modification gains or losses should the interest rate benchmark for these loans change resulting from the reform on application of the amendments.

### 2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

#### NEW AND AMENDMENTS TO HKFRSs IN ISSUE BUT NOT YET EFFECTIVE (CONTINUED)

##### Amendments to HKAS 1 “Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)”

The amendments provide clarification and additional guidance on the assessment of right to defer settlement for at least twelve months from reporting date for classification of liabilities as current or non-current, which:

- specify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. Specifically, the amendments clarify that:
  - (i) the classification should not be affected by management intentions or expectations to settle the liability within 12 months; and
  - (ii) if the right is conditional on the compliance with covenants, the right exists if the conditions are met at the end of the reporting period, even if the lender does not test compliance until a later date.
- clarify that if a liability has terms that could, at the option of the counterparty, result in its settlement by the transfer of the entity’s own equity instruments, these terms do not affect its classification as current or non-current only if the entity recognises the option separately as an equity instrument applying HKAS 32 “Financial Instruments: Presentation”.

In addition, Hong Kong Interpretation 5 was revised as a consequence of the Amendments to HKAS 1 to align the corresponding wordings with no change in conclusion.

Based on the Group’s outstanding liabilities as at 31 March 2021, the application of the amendments will not result in reclassification of the Group’s liabilities.

### 3. BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

#### 3.1 BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements have been prepared in accordance with the HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

## **3. BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

### **3.1 BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 “Share-based Payment”, leasing transactions that are accounted for in accordance with HKFRS 16 and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 “Inventories” or value in use in HKAS 36 “Impairment of Assets”.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

### **3.2 SIGNIFICANT ACCOUNTING POLICIES**

#### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 March 2021

### 3. BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### **Basis of consolidation (continued)**

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

##### **Investment in a joint venture**

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of a joint venture is incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of the joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income or expense of the joint venture. Changes in net assets of the joint venture other than profit or loss and other comprehensive income or expense are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

## **3. BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

### **3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Investment in a joint venture (continued)**

The Group assesses whether there is an objective evidence that the interest in a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any assets, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have significant influence over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that joint venture on the same basis as would be required if that joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal of the joint venture.

#### **Revenue from contracts with customers**

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Except for granting of a license that is distinct from other promised goods or services, control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

### 3. BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### Revenue from contracts with customers (continued)

For granting of a licence that is distinct from other promised goods or services, the nature of the Group's promise in granting a licence is a promise to provide a right to access the Group's intellectual property if all of the following criteria are met:

- the contract requires, or the customer reasonably expects, that the Group will undertake activities that significantly affect the intellectual property to which the customer has rights;
- the rights granted by the licence directly expose the customer to any positive or negative effects of the Group's activities; and
- those activities do not result in the transfer of a good or a service to the customer as those activities occur.

If the criteria above are met, the Group accounts for the promise to grant a licence as a performance obligation satisfied over time. Otherwise, the Group considers the grant of licence as providing the customers the right to use the Group's intellectual property and the performance obligation is satisfied at a point in time at which the licence is granted.

##### Variable consideration

For contracts that contain variable consideration (contract of license of trademarks), the Group estimates the amount of consideration to which it will be entitled using the most likely amount, which better predicts the amount of consideration to which the Group will be entitled.

The estimated amount of variable consideration is included in the transaction price only to the extent that it is highly probable that such an inclusion will not result in a significant revenue reversal in the future when the uncertainty associated with the variable consideration is subsequently resolved.

At the end of each reporting period, the Group updates the estimated transaction price (including updating its assessment of whether an estimate of variable consideration is constrained) to represent faithfully the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period.

Notwithstanding the above criteria, the Group shall recognise revenue for a sales-based or usage-based royalty promised in exchange for a licence of intellectual property only when (or as) the later of the following events occurs:

- the subsequent sale or usage occurs; and
- the performance obligation to which some or all of the sales-based or usage-based royalty has been allocated has been satisfied (or partially satisfied).

#### Revenue from contracts with customers (continued)

##### Refund liabilities

The Group recognises a refund liability if the Group expects to refund some or all of the consideration received from customers.

##### Sale with a right of return/exchange

For a sale of products with a right of return/exchange for dissimilar products, the Group recognises all of the following:

- (a) revenue for the transferred products in the amount of consideration to which the Group expects to be entitled (therefore, revenue would not be recognised for the products expected to be returned/exchanged);
- (b) a refund liability; and
- (c) an assets (and corresponding adjustment to cost of sales) for its right to recover products from customers and are presented as right to returned goods assets.

##### Contract costs

###### *Incremental costs of obtaining a contract*

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

The Group recognises sales commissions as an asset if it expects to recover these costs. The asset so recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the assets relate.

The Group applies the practical expedient of expensing all incremental costs to obtain a contract if these costs would otherwise have been fully amortised to profit or loss within one year.

##### Leases

###### Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed. As a practical expedient, leases with similar characteristics are accounted on a portfolio basis when the Group reasonably expects that the effects on the financial statements would not differ materially from individual leases within the portfolio.

###### The Group as a lessee

###### *Allocation of consideration to components of a contract*

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, including contract for acquisition of ownership interests of a property which includes both leasehold land and non-lease building components, unless such allocation cannot be made reliably.

The Group applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

###### *Short-term leases*

The Group applies the short-term lease recognition exemption to leases of buildings and office equipment that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis or another systematic basis over the lease term.

#### Leases (continued)

##### The Group as a lessee (continued)

###### *Right-of-use assets*

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities other than adjustments to lease liabilities resulting from Covid-19-related rent concessions in which the Group applied the practical expedient.

Right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

###### *Refundable rental deposits*

Refundable rental deposits paid are accounted under HKFRS 9 “Financial Instruments” and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

##### Leases (continued)

##### The Group as a lessee (continued)

##### *Lease liabilities*

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

#### **Leases (continued)**

##### **The Group as a lessee (continued)**

##### *Lease modifications*

Except for Covid-19-related rent concessions in which the Group applied the practical expedient, the Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability, less any lease incentives receivable, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

##### *Covid-19-related rent concessions*

In relation to rent concessions that occurred as a direct consequence of the Covid-19 pandemic, the Group has elected to apply the practical expedient not to assess whether the change is a lease modification if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- there is no substantive change to other terms and conditions of the lease.

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes are not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

##### Leases (continued)

##### The Group as a lessor

###### *Classification and measurement of leases*

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight line basis over the terms of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Rental income which are derived from the Group's ordinary course of business are presented as revenue.

###### *Refundable rental deposits*

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

###### *Lease modification*

Changes in considerations of lease contracts that were not part of the original terms and conditions are accounted for as lease modifications, including lease incentives provided through forgiveness or reduction of rentals.

The Group accounts for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease.

#### **Property, plant and equipment**

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes (other than properties under construction as described below). Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes (i.e. construction in progress) are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of property, plant and equipment, other than construction in progress, less their residual values over their estimated useful lives, using the straight line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

##### Deposits paid for acquisition of property, plant and equipment and right-of-use asset

Deposits paid for acquisition of property, plant and equipment and right-of-use asset are stated in the consolidated statement of financial position at cost less any subsequent accumulated impairment losses, if any. An item of deposits paid for acquisition of property, plant and equipment or right-of-use asset is transferred to property, plant and equipment or right-of-use asset upon receipt by the Group and is ready for its intended use.

##### Investment properties

Investment properties are property held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties over their estimated useful lives and after taking into account of their estimated residual value, using the straight line method.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

##### Intangible assets

##### Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

#### **Impairment on property, plant and equipment, right-of-use assets and intangible assets**

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit (“CGU”) to which the asset belongs.

In testing a CGU for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro-rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

#### 3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### **Impairment on property, plant and equipment, right-of-use assets and intangible assets (continued)**

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or the group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or the group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

##### **Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations with functional currency other than the presentation currency of the Group are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of the reporting period. Income and expenses are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during the period, in which cases, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a joint venture that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

### **3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Government grants**

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under “other income, gains and losses” line-item.

#### **Retirement benefit costs**

Payments to defined contribution retirement benefits scheme, state-managed retirement benefit scheme and the Mandatory Provident Fund Scheme (“MPF Scheme”) are charged as expenses when employees have rendered services entitling them to the contributions.

#### **Short term employee benefits**

Short term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries) after deducting any amount already paid.

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit (loss) before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

##### **Taxation (continued)**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interest in a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interest are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

#### **Taxation (continued)**

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 “Income Taxes” requirements to right-of-use assets and lease liabilities separately. Temporary differences on initial recognition of the relevant right-of-use assets and lease liabilities are not recognised due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss.

#### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on a first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

#### **Borrowing cost**

Borrowing costs, other than those directly attributable to the acquisition, construction or production of qualifying assets, are recognised in profit or loss in the period in which they are incurred.

#### **Financial instruments**

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

### 3. BASIC OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### **Financial instruments (continued)**

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 “Revenue from Contracts with Customers”. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss (“FVTPL”)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

##### **Financial assets**

###### *Classification and subsequent measurement of financial assets*

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income (“FVTOCI”):

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

*Classification and subsequent measurement of financial assets (continued)*

All other financial assets are subsequently measured at FVTPL, except that at initial recognition of a financial asset, the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 “Business Combinations” applies.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

##### *Impairment of financial assets*

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including trade receivables, deposits, other receivables, amounts due from entities controlled by non-controlling shareholders of a subsidiary and bank balances) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL are assessed individually for debtors with significant and credit-impaired balances. The remaining debtors are assessed collectively with similar credit risks characteristics using a provision matrix based primarily on the debtors’ aging profiles.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

### 3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial instruments (continued)

#### Financial assets (continued)

#### *Impairment of financial assets (continued)*

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

##### Financial instruments (continued)

##### Financial assets (continued)

##### *Impairment of financial assets (continued)*

(i) Significant increase in credit risk (continued)

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of “investment grade” as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

#### Financial instruments (continued)

#### Financial assets (continued)

#### *Impairment of financial assets (continued)*

#### (iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

#### (iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables, other than those significant and credit-impaired balances, using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for certain trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment losses in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

###### *Derecognition of financial assets*

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

##### **Financial liabilities and equity**

###### *Classification as debt or equity*

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

###### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

###### *Financial liabilities*

All financial liabilities are subsequently measured at amortised cost using the using the effective interest method or at FVTPL.

###### *Financial liabilities at FVTPL*

Financial liabilities are classified as at FVTPL when the financial liability is (i) contingent consideration of an acquirer in a business combination to which HKFRS 3 applies, (ii) held for trading or (iii) it is designated as at FVTPL.

- it is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

##### *Financial liabilities at amortised cost*

Financial liabilities including bank borrowings and trade and other payables are subsequently measured at amortised cost using the effective interest method.

##### *Derecognition of financial liabilities*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

## **4. KEY SOURCES OF ESTIMATION UNCERTAINTY**

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

### **RECOGNITION OF DEFERRED TAX**

As at 31 March 2021, the Group provided deferred tax assets of HK\$11,818,000 (2020: HK\$5,383,000) in respect of HK\$71,623,000 (2020: HK\$32,627,000) of unused tax losses. No deferred tax assets have been recognised in respect of the remaining tax losses of HK\$2,417,000 (2020: HK\$2,809,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future, which is a key source of estimation uncertainty especially given the significant uncertainty on the potential continuous disruption of the Group's sales of eyewear products due to the Covid-19 pandemic. In cases where the actual future profits generated are less than or more than expected, a material reversal or recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal or recognition takes place.

### **PROVISION OF ECL FOR TRADE RECEIVABLES**

Except for trade receivables with significant and credit-impaired balances which are assessed for ECL individually, the Group uses provision matrix to calculate ECL for the remaining trade receivables collectively. The provision rates are based on past due analysis by groupings of various debtors that have similar loss patterns. The provision matrix is based on the Group's historical default rates taking into consideration of both quantitative and qualitative information that is reasonable and supportable including forward-looking information that is available without undue costs or effort. At the end of each reporting period, the historical observed default rates are reassessed and forward-looking information are reconsidered.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in notes 32 and 22.

### 4. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

#### ESTIMATED IMPAIRMENT OF IDENTIFIED LONG-LIVED ASSETS (AS DEFINED BELOW)

Certain long-lived assets of the Group's business of manufacturing and trading of eyewear products, comprising principally certain of the Group's property, plant and equipment, right-of-use assets, intangible assets, deposits paid for acquisition of property, plant and equipment and right-of-use asset (the "Identified Long-lived Assets"), are stated at costs less accumulated depreciation/amortisation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgment and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the assets belongs. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the net present value used in the impairment test.

During the year ended 31 March 2020, in view of the reduction of worldwide market demand for eyewear products due to the deterioration of the macroeconomic environment and the global outbreak of the coronavirus, the sales volumes of eyewear products and the average utilization rate of the Group's existing production capacity decreased. The management of the Group concluded there was indication for impairment and conducted impairment assessments on the recoverable amounts of the Identified Long-lived Assets.

As at 31 March 2021, the management has reassessed the impairment assessment of the Identified Long-lived Assets, which the aggregate carrying amounts of the Identified Long-lived Assets after impairment was HK\$342,436,000 (2020: HK\$219,409,000), including certain property, plant and equipment, right-of-use assets, intangible assets, deposits paid for acquisition of property, plant and equipment and right-of-use asset of HK\$283,760,000, HK\$13,718,000, HK\$23,673,000 and HK\$21,285,000 respectively (2020: HK\$159,277,000, HK\$13,882,000, HK\$29,658,000 and HK\$16,592,000). The Group estimates the recoverable amount of the manufacturing and trading of eyewear products CGU to which the Identified Long-lived Assets belong because it is not possible to estimate the recoverable amount of some of the Identified Long-lived Assets individually.

The recoverable amounts of the manufacturing and trading of eyewear products CGU have been determined based on value in use calculation. The calculation uses pre-tax cash flow projections based on financial budgets approved by management of the Group covering a five-year period and discounted by pre-tax rates specific to the relevant CGU. The cash flows beyond the five-year period are extrapolated using growth rates which do not exceed the historical trend of the respective CGU nor the industry growth rates. Management determines the financial budgets based on past performance and its expectations for market developments, including the expectations of the macroeconomic outlooks in China and the countries in which the Group's major customers operate in, the market demand of the Group's eyewear products, among others. The growth rate beyond the five-year budget period and discount rate used for value in use calculation for the Identified Long-lived Assets as at 31 March 2021 are 2.0% and 15.81% (2020: 2.3% and 14.66%) respectively.

## 4. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

### ESTIMATED IMPAIRMENT OF IDENTIFIED LONG-LIVED ASSETS (AS DEFINED BELOW) (CONTINUED)

As at 31 March 2020, based on the result of the assessment, management of the Group determined that the recoverable amount of the CGU is lower than the carrying amount. The impairment amount has been allocated such that the carrying amounts of the Identified Long-lived Assets are not reduced below the highest of their respective fair value less cost of disposal, value in use and zero. Based on the value in use calculation and the allocation, impairment losses of HK\$112,000,000 and HK\$18,000,000 have been recognised against the carrying amounts of property, plant and equipment and right-of-use assets respectively during the year ended 31 March 2020.

As at 31 March 2021, based on the result of the assessment, management of the Group determined that no additional impairment loss nor reversal of impairment loss is required against the Identified Long-lived Assets. As at 31 March 2021, the accumulated impairment losses of property, plant and equipment and right-of-use assets amounted to HK\$112,000,000 and HK\$18,000,000 (2020: HK\$112,000,000 and HK\$18,000,000) respectively.

## **5. REVENUE AND SEGMENT INFORMATION (CONTINUED)**

### **PERFORMANCE OBLIGATIONS FOR CONTRACT WITH CUSTOMERS**

The Group manufactures and sells the eyewear products and contact lens to customers directly.

Revenue is recognised when control of the goods has transferred, being when the goods have been shipped to the customers' specific location (delivery). Following delivery, the customers have full discretion over the manner of distribution and price to sell the goods, also have the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods. The normal credit term is mainly 30 to 120 days upon delivery. Under the Group's standard contract terms, customers have a right to return/exchange for dissimilar products. The Group uses its accumulated historical experience to estimate the number of return/exchange. Revenue is recognised for sales which are considered highly probable that a significant reversal in the cumulative revenue recognised will not occur.

The Group also receives royalty income from granting license of trademarks. Revenue is recognised at a point in time when subsequent sale of licensing products from licensee occurs over the licensing period. The credit term is normally 30 days upon the end of a licensing reporting period.

### **TRANSACTION PRICE ALLOCATED TO THE REMAINING PERFORMANCE OBLIGATION FOR CONTRACT WITH CUSTOMERS**

Eyewear products and contact lens are delivered within a period of less than one year. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

Contracts for royalty income typically have a 3-years non-cancellable term in which the Group bills at a fixed rate for each licensing product. The Group elected to apply the practical expedient by recognising revenue in the amount to which the Group has right to receive according to the relevant licensing agreement. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

On 21 March 2017, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the “Bill”) which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

### 9. INCOME TAX (CREDIT) EXPENSE (CONTINUED)

PRC EIT is calculated at 25% of the assessable profits for subsidiaries established in the PRC in accordance with the Law of the PRC on Enterprise Income Tax (the “EIT Law”) and Implementation Regulation of the EIT Law. Pursuant to relevant laws and regulations in the PRC, a subsidiary of the Company is granted tax incentives for being qualified as a High and New Technology Enterprise and is entitled to a concessionary tax rate of 15% for 3 years from 2018 to 2020. Such previously granted concession expired during the year ended 31 March 2021.

Under the Law of the United States on Income Tax, a withholding tax is required upon income earned by a non-United States resident enterprise. The withholding tax is calculated at 30% of royalty income earned in the United States for both years.

During the year ended 31 March 2020, a portion of the Group’s profits earned by a principal subsidiary incorporated in Hong Kong, which is taxed on 50:50 apportionment basis, neither arises in, nor is derived from, Hong Kong. Accordingly, that portion of the Group’s profit is not subject to Hong Kong Profits Tax. Further, in the opinion of the directors of the Company, that portion of the Group’s profit is not at present subject to taxation in any other jurisdictions in which the Group operates. During the year ended 31 March 2021, that principal subsidiary is no longer taxed on 50:50 apportionment basis due to the change of operation from contract processing to import processing.

The income tax (credit) expense for the year can be reconciled to the profit (loss) before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	2021 HK\$’000	2020 HK\$’000
Profit (loss) before tax	2,665	(165,740)

The carrying amounts of owner-occupied leasehold land and buildings in the PRC of HK\$13,523,000 (2020: HK\$12,753,000) at the end of the year included both the leasehold land and building elements in property, plant and equipment, as in the opinion of the directors of the Company, allocations of the carrying amounts between the leasehold land and buildings elements cannot be made reliably. The land portions of the remaining owner-occupied properties were included in right-of-use asset.

The above items of property, plant and equipment, other than construction in progress, are depreciated on a straight line basis at the following rates per annum:

Land and buildings	Over the estimated useful lives of 50 years or the terms of leases, whichever is shorter
Leasehold improvements	10% – 20% or the lease terms, whichever is shorter
Plant and machinery	10% – 20%
Furniture and fixtures	20%
Motor vehicles	20%

Details of the impairment assessment of the Group's property, plant and equipment relating to the business of manufacturing and trading of eyewear products as at 31 March 2021 are set out in note 4.

Upon the transfer of certain leasehold land and buildings in Hong Kong from investment properties to property, plant and equipment, at 31 March 2021, the Group's leasehold land and buildings in Hong Kong with a carrying amount of HK\$118,758,000 have been pledged to secure the bank borrowings granted to the Group.

For both years, the Group leases various premises for its operations. Lease contracts are entered into for fixed term of 1 year to 10 years without any extension and termination options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

The Group regularly entered into short-term leases for buildings and office equipment. As at 31 March 2021 and 2020, the portfolio of short-term leases is similar to the portfolio of short-term leases to which the short-term lease expense disclosed above.

### **16. RIGHT-OF-USE ASSETS (CONTINUED)**

Except for the leasehold land components which the Group is the registered owner, the lease remaining agreements entered into by the Group do not impose any covenants other than the security interests in the certain leased assets that are held by the lessor and the leased assets may not be used as security for borrowing purposes.

Details of the impairment assessment of the Group's right-of-use assets relating to the business of manufacturing and trading of eyewear products are set out in note 4.

### **17. INVESTMENT PROPERTIES**

The Group leases out various offices under operating leases with rentals payable monthly. The leases typically run for an initial period of 1 to 2 years, with unilateral rights to extend the lease beyond initial period held by lessees only. The rental are fixed over the lease terms.

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in the respective functional currencies of group entities. The lease contracts do not contain residual value guarantee and/or lessee's option to purchase the property at the end of lease term.

### 17. INVESTMENT PROPERTIES (CONTINUED)

During the current year, there was a transfer of investment properties situated in Hong Kong with carrying amount of HK\$118,758,000 to property, plant and equipment due to the expiration of operating lease arrangement and the commencement of owner-occupation of the properties.

As at 31 March 2020, the fair value of the Group's investment properties situated in Hong Kong with carrying amount of HK\$123,297,000 was HK\$127,400,000. The fair value of the investment properties situated in Hong Kong was determined based on market comparable approach, where the prices per unit square feet of the property are assessed by reference to market evidence of transaction prices for similar properties in the same location and conditions in Hong Kong.

As at 31 March 2021, the fair value of the Group's investment properties situated in the PRC with carrying amount of HK\$6,662,000 (2020: HK\$6,282,000) was HK\$7,218,000 (2020: HK\$6,800,000). The fair value of the investment properties situated in the PRC was determined based on market comparable approach, where the prices per unit square meter of the property are assessed by reference to market evidence of transaction prices for similar properties in the same location and conditions in the PRC.

The fair values of the Group's investment properties at 31 March 2021 and 31 March 2020 have been arrived at on the basis of valuations carried out as at those dates by an independent qualified professional valuer of BMI Appraisals Limited, who is also a director of BMI Appraisals Limited and a member of the Hong Kong Institute of Surveyors.

The fair value measurements for all of the Group's investment properties as at 31 March 2021 and 2020 are categorised as level 3 (see note 3). There has been no change to the valuation technique as at 31 March 2021 and 2020.

In estimating the fair value of the investment properties, the highest and best use of the investment properties is their current use.

The above investment properties are depreciated on a straight line basis over the estimated useful lives of 50 years or the terms of leases, whichever is shorter.

At 31 March 2020, the Group's investment properties with a carrying amount of HK\$123,297,000 have been pledged to secure the bank borrowings granted to the Group. Such investment properties are transferred to property, plant and equipment.

### 19. INTEREST IN A JOINT VENTURE (CONTINUED)

The Group's joint venture is accounted for using the equity method in these consolidated financial statements. Details of the Group's joint venture at the end of the reporting year is as follows:

Name of joint venture	Place of incorporation/ operation	Class of shares held	Issued and fully paid share capital	Proportion of nominal value of issued share capital held by the Group		Proportion of voting power held <i>(Note)</i>		Principal activity
				2021	2020	2021	2020	
				%	%	%	%	
Olona Crea Srl ("Olona")	Italy	Ordinary	Euro ("EUR") 100,000	N/A	49	N/A	49	Manufacturing of optical frames, sunglasses and related products

Pursuant to the shareholders' agreement of Olona, the Group and the joint venturer can appoint 1 and 2 directors to the board of directors respectively. The decisions about the relevant activities of the joint venture require at least 75% voting in the board of directors of Olona. The directors of the Company therefore consider the Group and the joint venturer exercise joint control over the joint venture and accordingly, Olona is accounted for as a joint venture of the Group.

On 27 January 2021, the Group disposed of its entire interest in its joint venture to another shareholder of Olona and a loss on disposal of a joint venture to another shareholder of Olona of HK\$91,000 in profit or loss, calculated as follows:

	HK\$'000

### 20. DEFERRED TAXATION

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

	2021 HK\$'000	2020 HK\$'000
Deferred tax assets	(11,563)	(4,806)
Deferred tax liabilities	5,877	6,251
	<b>(5,686)</b>	1,445

The followings are the major deferred tax liabilities (assets) recognised by the Group and movements thereon during the current and prior years:

	Accelerated tax depreciation HK\$'000	ECL provision of trade receivables HK\$'000	Unrealised profit HK\$'000	Tax losses HK\$'000	Total HK\$'000
At 1 April 2019	2,587	–	–	–	2,587
Charge (credit) to profit or loss	3,103	(1,164)	2,302	(5,383)	(1,142)
At 31 March 2020	5,690	(1,164)	2,302	(5,383)	1,445
Charge (credit) to profit or loss	1,718	(731)	(1,683)	(6,435)	(7,131)
At 31 March 2021	7,408	(1,895)	619	(11,818)	(5,686)

At 31 March 2021, the Group has unused tax losses of HK\$74,040,000 (2020: HK\$35,436,000) available to offset against future profits. A deferred tax asset has been recognised in respect of HK\$71,623,000 (2020: HK\$32,627,000) of such losses. No deferred tax asset has been recognised in respect of the remaining HK\$2,417,000 (2020: HK\$2,809,000) due to the unpredictability of future profit streams. The entire balance of the unrecognised tax losses as at 31 March 2021 and 2020 may be carried forward indefinitely.

At the end of the reporting period, the Group has deductible temporary differences of HK\$120,349,000 (2020: HK\$151,240,000) relating to impairment of Long-lived assets, ECL provision of trade receivables and inventories write-down. No deferred tax asset has been recognised in relation to such deductible temporary difference as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

### 22. TRADE AND OTHER RECEIVABLES (CONTINUED)

The Group normally allows a credit period of 30 to 120 days to its customers. No interest is charged on the trade receivables. As at 1 April 2019, gross carrying amount of trade receivables from contracts with customers amounted to HK\$245,320,000.

The following is an aged analysis of trade and other receivables presented based on payment due date at the end of the reporting period:

	2021 HK\$'000	2020 HK\$'000
Current	217,451	187,672
Overdue up to 90 days	16,087	25,258
Overdue more than 90 days	3,033	12,118
	<b>236,571</b>	<b>225,048</b>

Before accepting any new customers, the Group carries out research on the creditability of new customer and assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed at least once a year. Trade receivables that are neither past due nor impaired have good track records with the Group.

As at 31 March 2021, included in the Group's trade receivables balance are debtors with aggregate carrying amount of HK\$16,710,000 (2020: HK\$27,174,000) which are past due as at the reporting date. Out of the past due balances, HK\$2,505,000 (2020: HK\$11,669,000) has been past due 90 days or more and is not considered as in default since the management considered the past due balances can be repaid based on repayment history and taking into consideration of forward looking information.

Details of impairment assessment of trade and other receivables are set out in note 32.

### 31. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern and to achieve optimisation of capital structure. The Group's overall strategy remains unchanged from prior years.

The capital structure of the Group consists of net debt, which includes the lease liabilities disclosed in note 26, bank borrowings disclosed in note 28, net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital, share premium, reserves and retained profits.

The directors of the Company review the capital structure periodically. As part of this review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. Based on recommendations of management of the Group, the Group will balance its overall capital structure through the payment of dividends and repayment of existing debt.

### (b) FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include trade and other receivables, derivative financial instruments, bank balances and cash, lease liabilities, bank borrowings and trade and other payables. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### Market risk

##### (i) Currency risk

Certain group entities have sales and purchases denominated in US\$, RMB, Euro ("EUR") and Japanese Yen ("JPY") other than the functional currency of respective entities, which expose the Group to market risk arising from changes in foreign exchange rates.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities which included trade and other receivables, bank balances and cash and trade and other payables, excluding derivative financial instruments, at the reporting date are as follows:

	Assets		Liabilities	
	2021	2020	2021	2020
	HK\$'000	HK\$'000	HK\$'000	HK\$'000

###### *Sensitivity analysis*

The Group is mainly exposed to the fluctuation of relevant foreign currency against HK\$.

The following table details the Group's sensitivity to a 5% (2020: 5%) increase and decrease in the relevant foreign currency against the functional currency of the relevant group entities. 5% (2020: 5%) represents the reasonably possible change in foreign exchange rates if currency risk is to be assessed by key management. The sensitivity analysis includes only outstanding relevant foreign currency denominated monetary items, excluding derivative financial instruments, and except for US\$ as the directors of the Company consider that the Group's exposure to US\$ is insignificant on the ground that HK\$ is pegged to US\$. The sensitivity analysis adjusts their translation at the year end for a 5% (2020: 5%) change in foreign currency rates. A positive (negative) number below indicates an increase (a decrease) in post-tax profit (2020: a decrease (an increase) in post-tax loss) where the relevant foreign currency weakens 5% (2020: 5%) against HK\$. For a 5% (2020: 5%) strengthening of the relevant foreign currency against HK\$, there would be an equal and opposite impact on profit or loss.

##### (ii) Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate bank balances (note 24) and bank borrowings (note 28).

The Group is also exposed to fair value interest rate risk in relation to lease liabilities (note 26).

Management considers that the exposure of cash flow interest rate risk arising from variable-rate bank balances is insignificant as the management does not anticipate a material change in interest rate on bank balances.

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of HIBOR arising from the Group's HK\$ denominated bank borrowings.

###### *Sensitivity analysis*

As at 31 March 2021 and 2020, 50 basis points increase/decrease in HIBOR are used which represents management's assessment of the reasonably possible change in interest rates. The changes was not significant to the consolidated financial statements. Accordingly, no sensitivity analysis was performed.

#### Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to trade receivables, bank balances, deposits, amounts due from entities controlled by non-controlling shareholders of a subsidiary and other receivables. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

#### Trade receivables arising from contracts with customers

In order to minimise the credit risk, management of the Group has monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed regularly. In this regard, management of the Group considers that the Group's credit risk is significantly reduced. In addition, the Group performs impairment assessment under ECL model on trade balances. Except for those with significant and credit-impaired balances which are assessed for ECL individually, the Group calculates the ECL on the remaining balances collectively by using a provision matrix, group by past due analysis.

The Group has concentration of credit risk with exposure limited to certain customers. At the end of reporting period, the Group's largest customer and five customers accounted for 24% (2020: 30%) and 72% (2020: 66%) of the Group's trade receivables respectively.

#### Bank balances

Although the bank balances are concentrated on certain counterparties, the credit risk on liquid funds are limited because the counterparties are banks with high credit ratings and quality.

#### Other receivables and deposits

The directors of the Company make periodic individual assessment on the recoverability of other receivables and deposits based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The directors of the Company believe that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. For the year ended 31 March 2021 and 2020, the Group assessed the ECL for other receivables and deposits to be insignificant and thus no loss allowance was recognised.

The Group has no concentration of credit risk on other receivables and the credit risk is limited because the counterparties have good repayment history.

Other than the concentration of the credit risk on trade receivables and bank balances, the Group does not have any other significant concentration of credit risk.

			(Note ii)	Lifetime ECL (provision matrix) (not credit-impaired)	65,788	81,060
			Loss	Lifetime ECL (credit-impaired)	–	449

Notes:

- (i) For deposits, amounts due from entities controlled by non-controlling shareholders of a subsidiary and other receivables, the credit risk on the balances is low as they have good repayment history. Accordingly, the amount of ECL is insignificant.
- (ii) For trade receivables, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. Except for debtors with significant and credit impaired balances which are assessed individually, the Group calculates the ECL on the remaining debtors by using a provision matrix, grouped by past due analysis.

#### (b) FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

##### Credit risk and impairment assessment (continued)

As part of the Group's credit risk management, the Group applies internal credit rating for its customers. Trade receivables with significant outstanding balances or were credit-impaired with gross carrying amounts of HK\$170,783,000 and nil respectively as at 31 March 2021 (2020: HK\$143,539,000 and HK\$449,000 respectively) were assessed individually. Loss allowance for trade receivables with significant outstanding balances and credit-impaired were amounted to HK\$11,268,000 and nil (2020: HK\$6,706,000 and HK\$449,000), respectively.

For the remaining debtors in relation to its eyewear products, contact lens products and royalty operation which consist of common risk characteristics that are representative of the customers' abilities to repay in accordance with the contractual terms are assessed collectively using a provision matrix based primarily on the debtors' ageing profiles. The following table provides information about the exposure to credit risk for trade receivables which are assessed based on provision matrix as at 31 March 2021 and 2020 within lifetime ECL (not credit-impaired).

	2021		2020	
	Average loss rate	Trade receivables HK\$'000	Average loss rate	Trade receivables HK\$'000
Current (not past due)	1.54%	48,469	1.00%	45,458

Overdue more than 90 days	17.69%	2,725	31.75%	12,106
		<b>65,788</b>		<b>81,060</b>

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated.

##### Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for the non-derivative financial liabilities are based on agreed repayment dates. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

In addition, the following table also details the Group's liquidity analysis for its derivative financial instruments. The tables have been drawn up based on the undiscounted contractual net cash (inflows) and outflows on derivative instruments that settle on a net basis. The liquidity analysis for the Group's derivative financial instruments are prepared based on the contractual maturities as the management consider that the contractual maturities are essential for an understanding of the timing of the cash flows of derivatives.

Bank borrowings with a repayment on demand clause are included in the “on demand or less than 1 month” time band in the above maturity analysis. As at 31 March 2021, the aggregate carrying amounts of these bank loans amounted to HK\$42,437,000 (2020: HK\$44,544,000). Taking into account the Group’s financial position, the directors of the Company do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The directors of the Company believe that such bank loans will be fully repaid eighteen years (2020: nineteen years) after the end of the reporting period in accordance with the scheduled repayment dates set out in the loan agreements, details of which are set out in the table below:

#### Maturity Analysis – Bank loans with a repayment on demand clause based on scheduled repayments

#### (c) FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Some of the Group's financial instruments are measured at fair value on a recurring basis at the end of each reporting period. The following table gives information about how the fair values of these financial instruments are determined (in particular, the valuation technique(s) and inputs used), as well as the level of fair value hierarchy into which the fair value measurements are categorised (levels 1 to 3) based on the degree to which the inputs to the fair value measurements are observable.

Financial assets	Fair value as at 31.3.2021	Fair value as at 31.3.2020	Fair value hierarchy	Valuation techniques and key inputs
Derivative financial instruments ( <i>note 23</i> )	Assets – HK\$7,000 Liabilities – HK\$769,000	Assets – HK\$7,000 Liabilities – HK\$382,000	Level 2	Future cash flows are estimated based on forward exchange rates (from observable forward exchange rates at the end of the reporting period) and contracted forward rates

There were no transfers into and out of Level 2 in the current and prior years.

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities measured in amortised cost in the consolidated financial statements which are not measured at fair value on a recurring basis approximate their fair values at the end of the reporting period.

### **36. RETIREMENT BENEFITS SCHEMES**

Effective from 1 December 2000, the Group has joined the MPF Scheme for its employees in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rule of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme.

The employees employed in the PRC are members of the state-managed retirement benefit schemes operated by the PRC government. The PRC subsidiaries are required to contribute a certain percentage of their payroll to the retirement benefit schemes to fund the benefits. The only obligation of the Group with respect of the retirement benefit schemes is to make the required contributions under the schemes.

The Group operated a defined contribution retirement benefits scheme (“Defined Contribution Scheme”) for certain employees. The assets of the scheme were held in funds under the control of an independent trustee. Where there were employees who leave the Defined Contribution Scheme prior to vesting, the contribution payable by the Group are reduced by the amount of forfeited contributions.

The retirement benefits scheme contribution arising from the Defined Contribution Scheme, the MPF Scheme and the PRC state-managed retirement benefit scheme charged to profit or loss represents contributions paid and payable to the funds by the Group at rates specified in the rules of the schemes.

The total cost charged to profit or loss of HK\$21,054,000 (2020: HK\$43,226,000) represents contributions paid and payable to these schemes by the Group in respect of the current financial year.

*Notes:*

- (i) Sun Hing Optical International Group Limited is directly held by the Company and all other subsidiaries are indirectly held.
- (ii) The subsidiaries established in the PRC are registered as wholly foreign owned enterprises.

The above table lists the subsidiaries of the Company which, in the opinion of the directors of the Company, principally affected the results or assets of the Group. To give details of other subsidiaries would, in the opinion of the directors of the Company, result in particulars of excessive length.

At the end of the reporting period, the Company has other subsidiaries that are not material to the Group. A majority of these subsidiaries operate in Hong Kong and the BVI. The principal activities of these subsidiaries are summarised as follows:

Principal activities	Principal place of business	Number of subsidiaries
